 - Must update EOP once every two years
 - Conform to guidelines outlined in CPG 101 v.2.0, developing and maintaining EOP
 - Subrecipients that are pass-through entities are required to monitor their subrecipients to verify EOP's are up to date
 - Maintain documentation showing this was verified (email, memo or copy of EOP)
 - If an EOP is not currently in place, you do not have to create one, but if there is an EOP in place, it must be updated

National Incident Management System (NIMS)

- All subrecipients must strive to be NIMS compliant and adhere to the prescribed mandates and principles
- NIMS is a systematic, proactive approach to guide departments and agencies at all levels of government, nongovernmental organizations (NGO), and the private sector in working together seamlessly and managing incidents involving all threats and hazards—regardless of cause, size, location, or complexity—in order to reduce loss of life, loss of property, and harm to the environment. <https://www.fema.gov/emergency-managers/nims>
- Regional Planning Commission (RPC)/Council of Governments (COG)
 - Executive Director and Project Director are required to complete IS0700.b within 12 months of hire/appointment date, and send a copy of the Completion Certificate to your DPS/OHS Grant Specialist

Procurement Requirements

- With any expenditure, the subrecipient must ensure that:
 - The expenditure is an approved budget line item
 - Reimbursements will **NOT** be made for items that are not an approved budget line item at the time of purchase
 - Prior approval has been obtained, if necessary
 - Sufficient funds are in the approved budget line
 - Subrecipients must have their own written procedures for determining costs are allowable, reasonable, allocable and necessary in accordance with Subpart E – Cost Principles and the terms and conditions of the Federal award (2 CFR Part 200.302 (7)). Agencies that do not have their own written policy, may adopt the DPS/OHS' Appendix B found in the Administrative Guide for Homeland Security Grants
- If a subrecipient is uncertain as to whether a cost meets these requirements, please contact the DPS/OHS for clarification

Subrecipient Procurement Policy Requirements

- If a subrecipient has a procurement policy, a copy must be submitted and accepted by the DPS/OHS
 - Submit procurement policy via email to Kristin Kayser by July 23, 2026

 - Missouri Rules of Office of Administration Division 40 – Purchasing and Materials Management <https://www.sos.mo.gov/cmsimages/adrules/csr/current/1csr/1c40-1.pdf>
- Cooperative Procurement Option <https://oa.mo.gov/purchasing/cooperative-procurement-program>
 - If utilizing state or cooperative contract, procurement documents (quotes/bids) and invoice **must** reference the contract number

State of Missouri Procurement Guidelines

Less than \$10,000	\$10,000 - \$99,999	Greater than \$100,000
<ul style="list-style-type: none">• Purchase with prudence on the open market	<ul style="list-style-type: none">• Must be competitively bid• Informal method is acceptable• Minimum of 3 bids/quote• Ex. Telephone quote, online pricing, request for quotation	<ul style="list-style-type: none">• Formal solicitation required• Advertised in at least two daily newspapers for general circulation at least 5 consecutive days before bids are to be opened• May also advertise in at least 2 weekly minority newspapers & provide through an electronic medium available to general public• Post a notice in a public area of your office• Solicit by mail or other reasonable methods generally available to the public• DPS/OHS must approve if less than 3 bids received

Single Feasible Source

- Use of a single feasible source procurement of \$10,000.00 or more requires prior approval from the DPS/OHS
 - A single feasible source form can be located on the DPS website <https://dps.mo.gov/dir/programs/ohs/grantstraining/> > Grant Applications and Forms > Other Grant Forms (at bottom of listing)
- If purchase is made using a single feasible source without prior approval, DPS/OHS has the right to refuse reimbursement
 - Non-compliance could result in the agency being listed as high risk

Single Feasible Source

- Use of single feasible source procurement is discouraged. A single feasible source procurement exists when:
 - Non-Federal Funds
 - Supplies are proprietary and only available from the manufacturer or a single distributor; or
 - Based on past procurement experience, it is determined that only one (1) distributor services the region in which the supplies are needed; or
 - Supplies are available at a discount from a single distributor for a limited period of time
 - Federal Funds and Other Non-Federal Funds Used for Federal Match
 - The item is available only from a single source; or
 - The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation; or
 - The DPS/OHS expressly authorizes noncompetitive proposals in response to a written request from the local agency; or
 - After solicitation of a number of sources, competition is determined inadequate

Who Are You Doing Business With?

- Subrecipients are required to verify that vendors used for grant purchases are not on either the Federal Excluded Parties List System (EPLS) or State Suspended/Debarred Vendors List
 - Federal System for Award Management: <https://sam.gov/content/home>
 - State of Missouri Office of Administration: <https://purch.oa.mo.gov/media/pdf/suspendeddebarred-vendors>
 - *Maintain a copy of a screenshot in the grant file to verify this was completed*

Prior Approval

- Some items require prior approval from the DPS/OHS, including, but not limited to:
 - Contracts – must contain Federal Contract Provisions located in 2 CFR 200 Appendix II Contract Provisions for Non-Federal Entity Contracts Under Federal Awards: <https://www.ecfr.gov/current/title-2/subtitle-A/chapter-II/part-200/appendix-Appendix%20II%20to%20Part%20200>
 - Single Feasible Source over \$10,000.00
 - Projects requiring an Environmental Planning and Historic Preservation (EHP)
 - Generator purchases
 - Items that require a federal waiver can be located in the IB's, examples of some of these items:
 - Boats
 - Unmanned Aerial Vehicles (drones/remote operated vehicles)
 - Explosives
- **Approval Requests must be submitted via WebGrants Correspondence to Kristin Kayser and Chelsey Call for the associated project**

Training Requests

- Revisions to the IB will reflect changes that will no longer require training forms to be utilized
- Need to make sure the training is listed in the budget – if not, please submit a Subaward Adjustment to request it to be added to the budget
 - REMEMBER: you must submit the adjustment ahead of time to allow for approval of budget changes prior to making plans to attend the training
 - Include details of training costs:
 - Registration
 - Hotel [GSA per diem]
 - Mileage [rate]
 - Rental
 - Meals [per diem]

Travel Expenses

- Reimbursements for mileage and meal expenses cannot exceed the state of Missouri approved rates

 - Current approved rate is \$0.70 per mile
 - Approved meal per diem rates: <https://oa.mo.gov/accounting/state-employees/travel-portal-information/meals-per-diem>
 - Last updated 09/15/2022
 - Incidentals are not covered [snacks/drinks = only meals]

****Mileage/Meal rates do change – it is a good idea to review this information often****

- Reimbursements for lodging cannot exceed the GSA approved rates
 - Exceptions do occur but you must verify it is acceptable with DPS/OHS
 - Use your tax exemption status – MO State tax will not be covered
 - GSA approved rates: <https://www.gsa.gov/travel/plan-book/per-diem-rates?gsaredirect=portalcategory>

Audit Requirements

- State and local units of government, institutions of higher education, and other nonprofit institutions, must comply with the organizational audit requirements of 2 CFR Part 200 Subpart F, Audit Requirements
 - Subrecipients who expend \$1,000,000.00 or more of federal funds during their fiscal year are required to submit a single organization wide financial and compliance audit report (single audit) to the Federal Audit Clearinghouse within 9 months after the close of each fiscal year during the term of the award <https://harvester.census.gov/facweb/>
 - Expended funds include all Federal funds, not just Homeland Security funds

Policy Guidance

https://www.fema.gov/sites/default/files/documents/fema_GPD-EHP-policy-final-amendment_82018.pdf

EHP Timeframe

- FEMA may be required to consult with the relevant State Historic Preservation Office (SHPO), the U.S. Fish and Wildlife Service (FWS), the U.S. Army Corps of Engineers (USACE), and others to determine impacts to sensitive resources

Please Note!

- Purpose of EHP review is to ensure compliance – **NOT** to deny or approve projects
- Costs of environmental review (e.g.: archeological surveys, reports, etc.) are the responsibility of and paid by the grant subrecipient

EHP Packet

The EHP form can be located on the DPS or FEMA website:

https://www.fema.gov/sites/default/files/documents/fema_ehp-screening_form_ff-207-fy-21-100_3-31-2026.pdf

- Complete the EHP form and submit it to DPS/OHS as early as possible
 - This process takes time, so finding out whether a project would require an EHP is needed immediately; it can take a significant amount of time to finalize the paperwork and receive FEMA approval
 - Please be mindful of time DPS/OHS needs to review the EHP prior to submission to DHS/FEMA
- Make sure the EHP Form includes:
 - Clear description of the project, including project location
 - Labeled, ground-level photos of the project area
 - Aerial photo(s)
 - Includes the year built for any buildings/structures involved in the project
 - Describes extent (length, width, depth) of any ground disturbance
 - Includes any other pertinent EHP info (e.g., environmental studies/surveys, FCC info, permits in-hand, etc.)

Project Description Example

- Bad
 - Install cameras in courthouse
- Good
 - Install 4 Panasonic VT-5 video cameras on first floor of 1898 county courthouse. Cameras will be installed opposite exit doors, 2 feet below drop ceiling (see diagram for location, position, and height). Wiring will use existing conduits..., etc.

EHP Supporting Photographs

Required: site photographs, maps and drawings

- Labeled, color aerial photograph of the project site

EHP Photographs Examples

- Clear and complete ground level photos with captions

EHP Photographs Examples

photographs. The example in Figure 6 shows the use of graphic symbols to represent security features planned for a building. The same symbols are used in the other pictures where the same equipment would be installed at other locations in/on the building. This example includes the name of the facility and its physical address.

EHP Submission

The EHP packet must be completed and submitted early!!

Projects started before clearance is issued will

NOT be reimbursed!

- If the project scope changes, another EHP form must be approved prior to work beginning
- EHP must include each building/area that will be touched
- Submit forms via Correspondence Component to Kristin Kayser and Chelsey

Inventory

Equipment

- Equipment is defined as tangible, personal property (including information technology systems) having a useful life of more than one year and a per-unit acquisition cost of \$1,000.00 or more for FY 2023 and prior. **For FY 2025, the cost is \$5,000.00 or more**
- Entities may have a lower acquisition cost in their procurement policy. If so, they **MUST** use the most stringent policy
- Equipment must be available for use on other projects or incidents provided it will not interfere with the work on the project for which it was originally acquired

Equipment Tagging

- All equipment purchased with State Homeland Security Program funds **MUST** be tagged*
- All tags must state:

Purchased with U.S. Department of
Homeland Security Funds

*Tags are available upon request. Contact Kelsey Saunders at:
kelsey.saunders@dps.mo.gov

Equipment Use

- Equipment must be used in the program or project it was acquired for as long as needed
- During the time that equipment is used on the project or program for which it was acquired, the non-Federal entity must make the equipment available for use on other projects or programs currently or previously supported by the Federal government, provided the use will not “interfere” with the work on the project or program for which it was originally acquired

Equipment Use

- When no longer needed, the equipment may be used in other activities supported by the Federal awarding agency, in the following priority:
 - Activities from the Federal awarding agency, which funded the original project
 - Activities under Federal awards from other Federal awarding agencies
- When acquiring replacement equipment, the non-Federal entity may use the equipment to be replaced as a trade in or sell the property and use the proceeds to offset the cost of the replacement property

Inventory Management

- Subrecipients **MUST**:
 - Have an inventory management system and maintain effective control
 - Have a control system in place to prevent loss, damage and theft
 - Investigate all incidents
 - Have adequate maintenance procedures to keep property in good condition

Inventory Management

- Equipment must be protected against loss, damage and theft
 - Per [2 CFR 200.310](#): The non-Federal entity must, at a minimum, provide the equivalent insurance coverage for real property and equipment acquired or improved with Federal funds as provided to property owned by the non-Federal entity
- Investigate all incidents of loss, damage, theft, and report to the DPS/OHS within 30 days of the incident
- Equipment must be maintained to keep it in mission capable (operational) condition
- Suggest that RPC/COG maintain records of regional inventory for the lifetime of the equipment
- RPC/COG must gather current details regarding equipment to verify proper maintenance and record keeping by the holding agency; suggest doing this often [at least once a year], throughout the lifetime of the equipment, to maintain proper contacts for responsible agencies and require necessary verification of mission capability [current pictures/insurance/title/maintenance and usage logs]

Inventory Management

- Equipment property records **MUST** be one item per line and include the following:
 - Region
 - County
 - Fiscal Year
 - Grant Program
 - Grant Award Number
 - Description of Equipment
 - EGMS/WebGrants Line-Item Number
 - Manufacturer
 - Model
 - Identification number
 - Title holder
 - Quantity
 - Individual Item Cost
 - % of Federal Participation in the Cost
 - Date of Delivery
 - Physical Location (MUST be the physical address)

- Missing information
- Multiple items on one line

Inventory Management

- New inventory will be added to DPS/OHS inventory at the time claims are approved
- Physical Inventory **MUST** be taken and results reconciled once every two years (December 31)

2026 inventory documents will be sent out from DPS/OHS - Summer 2026

Equipment Disposition

- When original or replacement equipment acquired with Homeland Security (HS) funds is no longer needed for the original project or program, the equipment may be retained, sold, or disposed of, if it is not needed in any other HS sponsored project or program
- Disposition requests should be submitted on a timely basis. Disposition requests should not be held and submitted for approval at the time of the biannual physical inventory

Equipment Disposition

- Subrecipients must request approval from the DPS/OHS prior to disposing of equipment. Procedures in the DPS/OHS Administrative Guide for Homeland Security Grants must be followed to request equipment disposition approval. Email the Equipment Disposition Forms to Kelsey Saunders at kelsey.saunders@dps.mo.gov
- A copy of the approved Equipment Disposition Form must be maintained in the subrecipient grant file
- Equipment Disposition Form can be located on the DPS website <https://dps.mo.gov/dir/programs/ohs/documents/equipment-disposition-request-form-regionalization.pdf>

Equipment Disposition

- Equipment with a per item fair market value of less than \$5,000.00 may be retained, sold, or disposed of, with no further obligation when approval is given by DPS/OHS
- Equipment with a per item fair market value of \$5,000.00 or more may be retained or sold

Equipment Disposition

- If sold, the Federal awarding agency is entitled to an amount calculated by multiplying the current market value or proceeds from the sale by the Federal awarding agency's percentage of participation
 - **Example:** Region X wants to sell their 2009 F150, which was 75% funded with Homeland Security funds and 25% funded with local funds. The fair market value for their 2009 F150 was \$6,000.00. The Federal awarding agency would be entitled to \$4,500.00 of the proceeds and the local agency would be entitled to \$1,500.00

Deployable Assets

- Homeland security funding should support deployable assets that can be used locally, regionally, across the State of Missouri, or the Nation, through automatic assistance and mutual aid agreements
- All assets supported in part or entirely with homeland security grant funding, **MUST** be readily deployable and NIMS kind and typed when possible. While it may not be physically deployable, GIS and interoperable communications systems are considered deployable assets

Resource Typing

- Resource Typing: Assigning a standardized typing designation to each resource ensures responders get the right personnel and equipment. To meet the Tier I criteria for national resource typing definitions, the resource must already exist as a defined, deployable interstate response resource
- Kind: Describes what the resource is (e.g., Medic, Firefighter, helicopter, bulldozer)
- Type: Describes the size, capability, and staffing qualifications of a specific kind of resource
- Website: <https://rtlt.preptoolkit.fema.gov/Public>

Type I Resources

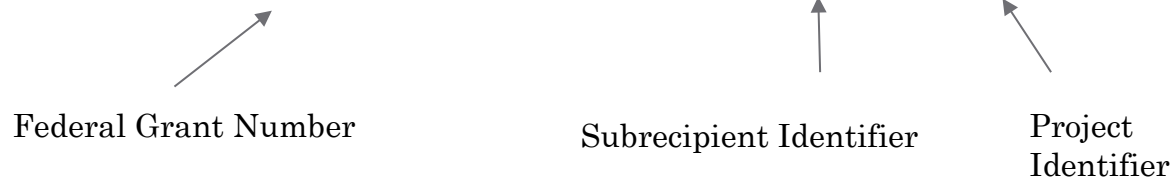

- Tier I represents resources that are included in the national resource typing definitions, the resource must:
 - Already exist as a defined, deployable interstate response resource
 - Be exchanged and deployed with usage governed through interstate mutual aid agreements
 - Be of sufficient capability to warrant being allocated and/or physically deployed nationally
 - Have performance capability levels that can be defined as to category, kind and type
- Be identified, inventoried, and tracked to determine availability status for response operations by the jurisdiction having authority
- Allow for command and control utilization under NIMS ICS
- Be sufficiently interoperable or compatible to allow for deployment through a defined system for resource ordering as authorized under interstate mutual aid and assistance agreements

Invoice Number:

→ State Agencies Only! Drop first 3 digits of number. Leave blank if there is not an invoice number!

Common Claim Mistakes

- Entering more than one invoice per expenditure line
 - Each invoice should be entered as its own expenditure line
- Submitting a claim with insufficient funds on budget lines
 - The budget and available funds should be reviewed at the time of procurement to ensure there are available funds and there are no other necessary changes requiring completion of a subaward adjustment (i.e., quantity change)
- More than one piece of equipment listed per line in the Equipment Detail component of the claim
 - Only one piece of equipment should be listed per line.
 - For example, a claim for 4 mobile radios should have 4 entries to the Equipment Detail component (one for each radio)
- Missing proof of delivery
 - Please be sure to review the [IB OHS-GT-2012-005 – Policy on Claim Request Requirements including OHS Reimbursement Checklist](#) before submitting claims to ensure all documentation has been provided
 - [IB OHS-GT-2012-005](#) contains a checklist to help verify you have all required documentation
 - **UPDATE: Training requests are no longer required**

Common Claim Mistakes

- Claiming expenses for M&A and WorkPlan to the wrong project
- Travel costs: If there is another expense [Ex: conference/workshop, etc.] to be attended that is not in the budget, you must give justification for how it fits under project in the Subaward Adjustment to add it to the budget

Subaward Adjustments

- [IB OHS-GT-2018-008 - Policy on Budget Modifications, Scope of Work Changes, and Spending Plans](#)
- The purpose of the IB is to assist subrecipients in understanding the requirements when requesting budget modifications and scope of work changes for existing grants

Subaward Adjustment

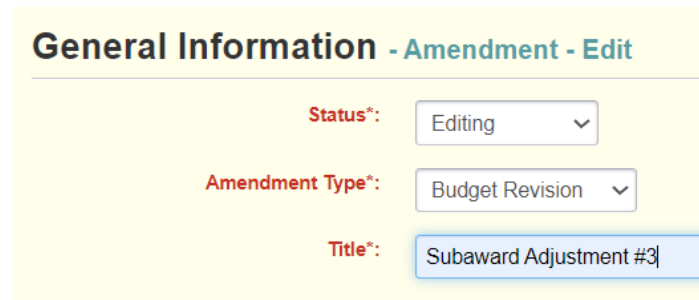

- Only one Subaward Adjustment may be submitted per quarter, per project
 - Discuss with Grant Specialist if an extenuating circumstance exists
- A Subaward Adjustment may not be submitted until the prior adjustment is in approved status
- Try to condense changes into one adjustment if possible
 - Example: budget changes with a request for a project extension

Subaward Adjustment

- Subaward Adjustments are required for:
 - Budget modifications
 - Updates to reflect budgeted vs. actual costs
 - Scope of Work Changes
 - Adding a new project to the grant award
 - Adding new line items to the approved project budget
 - Changes in the quantity of an existing line item in the approved project budget
 - Changes to the specifications of an existing line item in the approved project budget
 - **All scope of work changes must be requested at least 90 days prior to the end of the grant period of performance**
- Subaward Adjustments must be submitted through WebGrants and approved by the DPS/OHS **prior** to grant funds being obligated
 - Refrain from making any purchases regarding the change until DPS/OHS approval is received

Due to savings in the actual cost of the SCBA tanks we would like to request to use the remaining funds to purchase additional SCBA filters. These filters are needed due to extra deployments of SCBA units this year. Please see requested changes to the budget below:

Subaward Adjustment

- Budget Section/Form of Budget Subaward Adjustment:
 - Make sure to match the current budget amounts with the correct budget category on the subaward adjustment
 - Complete **ALL** of the budget categories, not just the ones you are adjusting
 - Indirect Costs are not a separate budget category – they are included in the supplies/operations category for SHSP Grants
 - Follow the project's budget breakdown – should match this adjustment section
 - It can be helpful to look at last approved claim as well to see what funding is left in the budget line to expend
- Make sure to fill in the **Federal/State and Local Match Share** section
 - There is not a match on SHSP grants – this section stays \$0.00

- Subaward Adjustments are due each quarter after each RHSOC meeting
 - Due Dates: May 31st, August 31st, November 30th, February 28th
- Documentation showing RHSOC approval (meeting minutes) must be attached to the Subaward Adjustment request

Regionalization Subaward Adjustment Requirements

Pass-Through Requirements

Pass-Through Entities

- [2 CFR 200.1](#) defines a pass-through entity as a “non-Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program.”
- [2 CFR 200.1](#) defines a subaward as an “award provided by a pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract”

Who is a Pass-Through Entity?

- The Missouri Department of Public Safety, Office of Homeland Security, is a pass-through entity as subawards are issued to all RPC/COGs
- Your agency is a pass-through entity if it receives a subaward from the DPS/OHS and subsequently passes funds, personnel costs, equipment, supplies, etc., to another entity

Pass-Through Entity Requirements

- [2 CFR 200.332](#) discusses pass-through entity requirements, which are listed below:
 - Risk Assessment
 - Subaward
 - Monitoring
- The DPS/OHS has released [IB OHS-GT-2018-009 - Policy for Requirements of Subrecipient Pass-Through Entities](#) for reference to the requirements listed above

Subawards

- Pass-through entities are required to issue subawards as detailed in [2 CFR 200.332\(b\)](#)
- [IB OHS-GT-2018-009 - Policy for Requirements of Subrecipient Pass-Through Entities](#) also discusses subaward requirements
- Certain elements are required to be detailed in the subaward as discussed in [2 CFR 200.332\(b\)](#)
- The DPS/OHS maintains a subaward template for use
- If the pass-through entity chooses to utilize their own subaward template, it must be approved by the DPS/OHS prior to issuance
- All Articles of Agreement in the subaward, issued to the pass-through entity, by the DPS/OHS, must be passed through to their subrecipient via the subaward
 - It is the responsibility of the pass-through entity to thoroughly read and understand all conditions to maintain compliance
- **Copies of signed subaward agreements are due to the DPS/OHS prior to the start of any project – submit via Attachments Component in WebGrants**

Subaward Modifications

- The DPS/OHS maintains a Grant Adjustment Notice (GAN) template that can be utilized for subaward modifications
- If any of the elements of the subaward change throughout the period of performance, a subaward modification or adjustment must be completed to update the subaward
 - For example:
 - Amount of award changes (i.e., project savings are moved to another project, funds are de-obligated)
 - Project period of performance changes (approved extensions)
- The RPC/COG needs to retain the GAN in their files

Denial Letters to Subrecipients

- Pass-through agencies are responsible for sending out denial letters to any agency whose application was reviewed and not funded by the RHSOC
 - Maintain copy of letters in grant file

Risk Assessments

- Risk assessment evaluates subrecipient risk of noncompliance to determine appropriate monitoring or additional special conditions
- [2 CFR 200.332 \(c\)](#) discusses risk assessment requirements
- [IB OHS-GT-2012-001- Policy on Monitoring Subrecipient Reporting, Recordkeeping, and Internal Operation and Accounting Control Systems](#)
- [IB OHS-GT-2018-009 - Policy for Requirements of Subrecipient Pass-Through Entities](#) also discuss risk assessment requirements

Risk Assessments

- Must be completed by pass-through entities for each subrecipient before a subaward is issued
 - Assigned in WebGrants
 - **Completion due by 06/30/2026**
- Evaluation of risk may include factors such as:
 - Prior experience
 - Previous audit conclusions
 - New personnel or new/changed time/accounting systems
 - Federal monitoring conclusions
 - Other

Risk Assessment Results

- The pass-through entity may choose to impose special conditions on the subrecipient's subaward based on the results of the risk assessment
- [2 CFR 200.208](#) discusses specific conditions the pass-through entity may impose such as:
 - Withholding authority to proceed to the next phase of a project until receipt of evidence of acceptable performance within a given period of performance
 - Requiring additional, more detailed financial reports
 - Requiring additional project monitoring
 - Requiring the non-Federal entity to obtain technical or management assistance
 - Establishing additional prior approvals
- Any special conditions imposed on the subrecipient should be included in the subaward Articles of Agreement

Subrecipient Monitoring

- Key things to remember about monitoring:
 - Monitoring is **NOT** an audit
 - DPS/OHS is **NOT** out to catch you doing something wrong – we are there to **HELP** you to correct areas of noncompliance to prevent audit findings
 - Chance to provide technical assistance and answer questions

Subrecipient Monitoring

- Why do we have to monitor?
 - [2 CFR 200.329 \(a\)](#) states, “The recipient and subrecipient is responsible for oversight of the Federal award. The recipient and subrecipient must monitor their activities under Federal awards to ensure they are compliant with all requirements and meeting performance expectations. Monitoring by the recipient and subrecipient must cover each program, function, or activity.”
 - [2 CFR 200.332 \(e\)](#) states, “all pass-through entities must monitor the activities of the subrecipient as necessary to ensure that the subaward is used for authorized purposes, in compliance with Federal statues, regulations, and the terms and conditions of the subaward; and that subaward performance goals are achieved.”

What Documents Guide Monitoring

- 2 CFR Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards
- DHS/FEMA Applicable Grant Program Guidance/NOFO
- DHS/FEMA Grant Program Directorate Information Bulletins
- Applicable State of Missouri statutes and regulations
- DPS/OHS Administrative Guide for Homeland Security Grants
- Applicable Articles of Agreement
- DPS/OHS Applicable Grant Program Guidance/NOFO
- Subaward Agreement
- DPS/OHS IBs

Types of Monitoring

- Desk Monitoring
 - Review that is completed by the DPS/OHS or pass-through entity's office
- On-Site Monitoring
 - Review that is conducted by the DPS/OHS or pass-through entity at the subrecipient's agency

What to Expect on Monitoring

- Scheduling
 - Agreed upon date between DPS/OHS and subrecipient
 - Given at least 30 days notice
- Topics covered
 - See Monitoring Information Bulletin
- Corrective actions
 - If observations are made, at least 30 days will be allowed to complete and submit necessary corrective actions

Minimum Pass-Through Monitoring Standards

- [IB OHS-GT-2012-001- Policy on Monitoring Subrecipient Reporting, Recordkeeping, and Internal Operation and Accounting Control Systems](#) discusses the minimum standards for pass-through monitoring
- All pass-through entities are required to have a monitoring policy that meets or is more stringent than the minimum standards
- Monitoring requirements for pass-through entities are dependent upon which entity is performing the procurement and purchasing

Minimum Pass-Through Monitoring Standards

- If the **pass-through entity** performs all of the procurement and purchasing activities, the pass-through entity is required to monitor the following, as applicable:
 - Equipment
 - Personnel
 - Supplies
 - Contractual
 - EHP
 - Audit requirements
 - NIMS Compliance
 - Federal/State Civil Rights
 - Emergency Operations Plan (EOP)
 - Conflict of Interest Policy

Minimum Pass-Through Monitoring Standards

- If the **local subrecipient** agency performs all of the procurement and purchasing activities, the pass-through entity is required to monitor the following, as applicable:
 - All requirements that were required if the pass-through entity performed the procurement and purchasing
 - Procurement and purchasing
 - Internal control procedures/segregation of duties
 - Accounting system
 - Record Retention
 - Suspension and debarment

Minimum Pass-Through Monitoring Standards

- At a minimum, the DPS/OHS requires pass-through entities to monitor 10% of their subrecipients (projects) for each grant cycle
- At least half of the required monitoring's must be conducted as on-site monitoring's
 - Should select subrecipients with a higher risk indicated by risk assessment to be monitored
 - If no high risk subrecipients, can choose which subrecipients to monitor

Minimum Pass-Through Monitoring Standards

- Examples:
 - Pass-through entity has 20 subrecipients for the FY 2025 grant cycle
 - 10% of 20 subrecipients = 2 monitorings
 - 1 monitoring must be conducted on-site
 - Pass-through entity has 5 subrecipients for the FY 2025 grant cycle
 - 10% of 5 subrecipients = 1
 - Since only 1 monitoring is required it must be conducted on-site
- Documentation of completed monitoring must be maintained in the grant file
- The DPS/OHS maintains desk and on-site monitoring form templates that are available for use

 - Single Feasible Source approval

Common Areas of Non-Compliance/Recommendations
